RISK REWARD PROFILE (SRI)

The summary risk indicator (SRI) is a guide to the level of risk of this product compared to others. It shows how likely it is that the product will lose money because of movements in the markets. The indicator is based on a scale of 1 (lower risk, typically lower reward) to 7 (higher risk, typically higher reward). The lowest category does not mean risk free. The risk category of the Fund is not guaranteed and may change over time. Historical data and the methodology used may not fully reflect all potential future risks. The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you might get back less. For more information on the risks associated with this Fund, please consult the "Risk Factors" section of the Fund's prospectus.

STRATEGY

The Information displayed above reflects the underlying holdings of the Fund. Investors will acquire shares in the Fund. Investors do not acquire any holding in, or rights to, the underlying assets. The goal of the Pzena U.S. Large Cap Value Fund is to achieve long term alpha generation. Pzena actively manages the Fund and to this end, Pzena employs a classic value investment philosophy, seeking to own good businesses at low prices. The investment team at Pzena focuses on companies that are underperforming their historically demonstrated earnings power. Intensive fundamental research is applied to these companies in an effort to determine whether the problems that caused the earnings shortfall are temporary or permanent. After the research process is complete and the company meets all the investment criteria, the Fund's portfolio managers may agree to add the name to the portfolio; their decision must be unanimous. Our sell discipline is guided by the same ranking system that informs stock purchases. We continuously monitor every position's valuation rank (based upon the company's current stock price relative to normalized earnings) within its investment universe. Generally we sell a stock once it reaches the midpoint of its investment universe; however, we may hold a security below this point in order to maintain a desired level of diversification.

ABOUT PZENA

Pzena Investment Management, LLC, a New York-based, independent, registered investment manager, began managing assets in 1996.

From the beginning we have followed a classic value investment style built on a foundation of intensive fundamental research and a disciplined, repeatable investment process.

Pzena manages U.S. and global equities for a substantial and diversified client base that includes pension plans, endowments, foundations, financial intermediaries and high-net-worth individuals.

DISCLOSURE

Pzena Investment Management, LLC, the investment manager of the fund, is located at 320 Park Avenue, 8th Floor, New York, NY 10022 and is a registered investment adviser registered with the United States Securities and Exchange Commission.

Past performance is not indicative of future results. The value of your investment may go down as well as up, and you may not receive upon redemption the full amount of your original investment. Investments may be in a variety of currencies and therefore changes in rates of exchange between currencies may cause the value of investments to decrease or increase.

All investments involve risk, including loss of principal. The price of equity securities may rise or fall because of economic or political changes or changes in a company's financial condition, sometimes rapidly or unpredictably. PIM's strategies emphasize a "value" style of investing, which targets undervalued companies with characteristics for improved valuations. This style of investing is subject to the risk that the valuations never improve or that returns on "value" securities may not move in tandem with the returns on other styles of investing or the stock market in general.

This document should be read in conjunction with its prospectus and the relevant Key Investor Document(s) depending on your jurisdiction, either the PRIIPS Key Investor Document or UCITS Key Investor Information Document (the "KID(s)"). All transactions should be based on the latest available prospectus and KID which contains more information regarding the charges, expenses, where the funds are authorised for sale and risks involved in your investment.

Further detailed information regarding the Fund, including Prospectus, Supplements, KIDs and latest annual reports is available free of charge at www.pzena.com.

Pzena Investment Management Europe LTD, the appointed fund manager, is authorized and regulated as a management company by the Central Bank of Ireland under the UCITS Regulations and is located at Fitzwilliam Hall, Fitzwilliam Place, Dublin 2, D02 T292, Ireland.

Fund returns are benchmarked to the Russell 1000 Value® index (the "Benchmark"). The Benchmark is used for comparative purposes only. The Russell 1000 Value® Index measures the performance of the large cap value segment of the US equity universe. It includes those Russell 1000® companies with lower price-to-book ratios and lower expected growth values. The Benchmark cannot be invested in directly. The performance of the Benchmark reflects the reinvestment of dividends net of withholding tax rates. The Fund's performance reflects the deduction of all Fund fees and expenses and reflects reinvested dividends (different share classes may vary). The Fund is significantly more concentrated in its holdings and has different sector and regional weights than the Benchmark. Accordingly, the performance of the Fund will be different from, and at times more volatile, than that of the Benchmark.
